1.	Comment. This is the first report on units quartered in these two barracks installations. The unit wearing red service color presumably was a motor transport unit which possibly was subordinate to the lst MD. The unit wearing yellow cap bands, which also may have been a motor transport unit, probably belongs to the lst Kosciuszko Division.	25 X 1
2.0	Comment. The location of this borracks installation was previously reported. The unit billeted there is believed to belong to the let Kosciuszko Division.	25X1
